July 1, 2010

Mary Beth Love, PhD  
Chair  
San Francisco State University  
Department of Health Education  
1600 Holloway Avenue - HSS 326  
San Francisco, CA 94132-4161

Dear Dr. Love:

On behalf of the Council on Education for Public Health, I am pleased to advise you that the CEPH Board of Councilors acted at its June 17-19, 2010 meeting to accredit the MPH Program in Community Health Education at San Francisco State University for a seven-year term, extending to July 1, 2017.

We are enclosing a copy of the Council's final accreditation report. The report is also being transmitted to the chief executive officer of your university as the Council's official report. This is identical to the team's report that you received prior to our meeting.

I would call your attention to the disclosure provisions in our adopted procedures. The program is expected to make its official accreditation report available to the public on request 60 days following the accreditation decision, for reasonable reproduction costs. You may append a written response whenever you distribute the report. The official report also will be available on request from CEPH after 60 days, but it is our intent to refer all initial requests to you. If you provide this office with a copy of a written response by August 10, 2010, we will be pleased to append it whenever we respond to a request for the report. Please note that this response is optional.

We would also like to remind you that whenever an accredited school or program undergoes a substantive change, it is obligated to provide written notification to CEPH of the intended change. Substantive changes are defined in the procedures manual, but generally include offering a new degree, adding or discontinuing an area of specialization, offering a degree program in a different format or at a distant site and making major revisions to the curricular requirements. Additional information about substantive changes is available at [www.ceph.org](http://www.ceph.org).

We appreciated the many courtesies and helpfulness extended to the site visit team.

Sincerely,

Stephen W. Wyatt, DMD, MPH  
President

Enclosure
